STORYLINE 360

COURSE PUBLISHING CHECKLIST

Using a checklist can enhance the quality of any e-learning course by ensuring all essential components are included and well-executed. It serves as a guide to keep track of crucial elements such as course objectives, engaging content, interactive activities, and proper assessments.

I. Cont	ent Review & Continuation	
	Verify accuracy of course content and information. Ensure clarity and conciseness in explanations and instructions. Check for spelling, grammar, and punctuation errors. Confirm that all images, graphics, and videos are clear and relevant.	
2. Navigation & Interactivity		
	Test all buttons, navigation controls, and interactive elements. Verify that Next, Previous, and Submit buttons function as intended. Ensure custom navigation (e.g., branching) follows the correct paths. Test quizzes and knowledge checks for proper scoring and feedback.	
3 Media	a & Animations	
3. Media	& Animations	
3. Media	& Animations Confirm audio quality (clear, synchronized, and without distortion).	
3. Media		
3. Media	Confirm audio quality (clear, synchronized, and without distortion).	
3. Media	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing. Check that videos play correctly and are fully viewable.	
3. Media	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing.	
	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing. Check that videos play correctly and are fully viewable.	
	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing. Check that videos play correctly and are fully viewable. Validate that media elements load promptly without lag.	
	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing. Check that videos play correctly and are fully viewable. Validate that media elements load promptly without lag. ssibility Criteria (508 Compliance)	
	Confirm audio quality (clear, synchronized, and without distortion). Test animations for smooth transitions and appropriate timing. Check that videos play correctly and are fully viewable. Validate that media elements load promptly without lag. ssibility Criteria (508 Compliance) Ensure alt text is provided for all non-decorative images.	

STORYLINE 360 COURSE PUBLISHING CHECKLIST

5. Playe	r & Settings Configuration
\bigcirc	Enable/disable menu, glossary, and resources as needed.
	Set navigation restrictions (Free, Restricted, or Locked) appropriately.
	Review the player preview for desktop, tablet, and mobile views.
\bigcirc	Review player settings.
. SCORI	M & LMS Settings
\bigcirc	Select the correct LMS output (SCORM 1.2, SCORM 2004, xAPI, AICC).
	Set the reporting and tracking options accurately.
	Verify completion settings (Slide Views, Quiz Results, or Triggered Completion).
	Test the course in an LMS sandbox before final deployment (like SCORM Cloud).
. Final T	esting
	Test the entire course in different browsers (Chrome, Firefox, Safari, Edge).
	Verify mobile responsiveness on various devices in various browsers.
	Conduct a final end-to-end walkthrough from start to finish.
Backup & Documentation	
	Save a backup of the Storyline project file (.story).
	Document version history and any known issues.
	Ensure any third-party assets are licensed and credited correctly.
